

THE ESSENCE OF COLORE, the advancement of science.

colorescience®

BLENDING the LINE BETWEEN COLORE and SCIENCE

COLORES • PROTECTS • CORRECTS

colores

Colorescience brings you a sophisticated palette of highly pigmented, light reflective COLORES that give your skin a flawless, youthful look.

Concentrated Pressed Mineral Pigment

Suncanny SPF 20

the science...

WHAT THE DOCTOR SAYS

"My patients visit me from all over the world, so it's essential that I offer technology and makeup for a wide variety of skin tones. Colorescience Foundation Brushes and Global Pressed Compacts are the perfect partner for cosmetic procedures such as lasers, fillers and injectables, allowing my patients to return to their regular activities immediately after treatment."

HEMA SUNDARAM, M.D., FAAD
FOUNDER AND DIRECTOR, DERMATOLOGY,
COSMETIC AND LASER SURGERY OF ROCKVILLE, MD,
AND FAIRFAX, VA
AESTHETIC MEDICINE ADVISOR, THE HEALTH
CENTRAL NETWORK

WHAT THE MAKEUP ARTIST SAYS

"The variety of color tones offered in Colorescience Foundation Brushes allows me to conceal, correct, color match, cover, and contour the skin simply and quickly. The new Global Colores have made skin-color matching very easy for virtually any skin type. I use sheer, deliberate layers to achieve a wash of color or a camouflage level of coverage."

HOLLIS WRIGHT
NATIONAL EDUCATION DIRECTOR AND MAKEUP ARTIST, COLORESCIENCE

COLORES • PROTECTS • CORRECTS

protects

Colorescience mineral powder sunscreen will PROTECT your skin instantly, easily, and effectively. Easy to apply and reapply makes sunscreen compliance fun.

the science...

WHAT THE DOCTOR SAYS

"Sunforgettable is a breakthrough product for dermatologists because it takes away all the problems associated with sunscreen use: it is not greasy, blends in well with any skin type, stays on in the water, and is easy to reapply over makeup or active skin. I am convinced this product alone will prevent many cases of skin cancer."

AMY FORMAN TAUB, M.D.
FOUNDER, ADVANCED DERMATOLOGY
SKINFO AND SKINQRI ASSISTANT CLINICAL PROFESSOR,
NORTHWESTERN UNIVERSITY MEDICAL SCHOOL

SPF 30 Powder Sun Protection

WHAT THE MAKEUP ARTIST SAYS

"I love this product! Not only is it real mineral sun protection that feels like you're wearing nothing at all, but every time you look in the mirror, you can't believe your skin looks like it's glowing from within. It doesn't ever look powdery (which can make you look old)."

TANIA RIBALOW
CELEBRITY MAKEUP ARTIST, "WHAT HAPPENS IN VEGAS"

corrects

Colorescience formulates with anti-microbial and antioxidant ingredients that work on the surface of the skin to CORRECT signs of rosacea, hyperpigmentation and acne.

Foundation Primers

WHAT THE DOCTOR SAYS

"The ingredients in Colorescience Primers promote good skin health. They eliminate the appearance of redness caused by rosacea and sun damage, while addressing skin texture as well. I use Primers after laser treatments when redness and irritation can occur. Colorescience products are playing an increasingly important role for dermatologists and their patients."

MICHAEL H. GOLD, M.D.
MEDICAL DIRECTOR AND FOUNDER,
GOLD SKIN CARE CENTER, ADVANCED
AESTHETICS MEDICAL SPA
TENNESSEE CLINICAL RESEARCH CENTER,
THE LASER AND REJUVENATION CENTER

WHAT THE MAKEUP ARTIST SAYS

"Working with celebrities and entertainers, I've come across many makeup products, but the one I cannot do without is Colorescience Line Tamer. It helps cover uneven skin tones and moisturizes. Best of all, it refines lines and minimizes pores, and skin becomes radiant within seconds of applying it. My A-list clients love it!"

CHANTY LAGRANA
EMMY AWARD WINNING AND LEAD MAKEUP ARTIST,
"ENTERTAINMENT TONIGHT"

COLORES • PROTECTS • CORRECTS

THE MOTHER OF MINERAL MAKEUP

CEO and Founder of Colorescience

Inventor of Powder Sunscreen

A major influence in the cosmetic industry, creating trends and movements for over thirty years.

Diane Ranger

Recommended by leading Dermatologists and Celebrity makeup artists alike, Diane Ranger and Colorescience are truly blending the line between Colore and Science. In 1976, Diane first revolutionized the cosmetic industry when she founded Bare Escentuals and invented mineral makeup, which in turn created the multi-billion dollar mineral makeup industry.

Colorescience is the evolution into the 21st century of mineral colre skincare. Completely free of the dyes, talcs, fillers, mineral oil, perfumes and other ingredients found in traditional lines, Colorescience gives you beautiful results without disrupting healthy skin function. The line encompasses the essence of colore and the advancements in science to give your skin instant and long-lasting results.

PHOTOGRAPHS OF MINERAL SAMPLES BY JAMES WEINER

ALL MINERALS ARE NOT created EQUAL.

+ SUN PROTECTION

Minerals found in real mineral makeup protect your skin from UVA and UVB sun rays.

+ LOCKS IN MOISTURE

Water-resistant minerals form a protective barrier on the skin so skin stays clean and clear, like the water shown.

- MINERALS ARE NOT PROPERLY PROCESSED

Ingredients that muddy the water are not real minerals. Minerals that sink to the bottom, when placed in water, are not properly processed.

+ HIGH-INTEGRITY MINERALS

Real micronized minerals that are processed properly are completely water-proof and will not dissolve in water, which is why they float on top.

- FEW MINERALS PRESENT

If the ingredients bubble or foam in water, the makeup is not comprised of real minerals.
